ABOUT ME

+

Hello!

My name is Anne Duquennois and I do design and film. I love working on creative projects and I love supporting people, places and organizations that do good. I like to bring my creativity and skills into collaborative relationships to help make great things happen (and hopefully have some fun in the process).

(2010-2011)

UNIVERSITY OF COLORADO CENTRAL ADVANCEMENT

In this role I develop advancement communications that focus on internal and external audiences, in service of the University of Colorado Office of Advancement. I imagine, create and produce a variety of video and design work to inspire donors to make gifts benefiting the University of Colorado, including the online annual impact report. I also lead projects from conception to completion by interacting frequently with advancement colleagues, internal partners and external constituents, notably students and donors and campus partners.

CU MUSEUM OF NATURAL HISTORY

Trained museum staff in video production and led video editing workshops. Created educational materials to assist in future video projects. Researched tools for VR exhibit experiences and provided assessment on each

RARE / AMERICORPS - CITY OF COQUILLE Managed the Community Center, designed communication strategies and built a digital system for administrative functions. Drafted a strategic recreational plan. Organized events and programs for the community. Assisted in creating the Parks Master Plan. Developed park system branding and interpretive signage. Wrote successful grants to fund the Coquille River Walk extension.

PARSONS SCHOOL OF DESIGN STRATEGIES Created a series of promotional videos for graduate programs and photographed events. Designed and led 32 hours of workshops in Adobe Creative Suite and 32 hours of workshops in Film Editing. Assisted an Advanced GIS graduate class.

SB TOOLS

Managed marketing materials for a small industrial startup that manufactured wood turning tools. Created print materials for packaging, ads, and user manuals. Shot and edited instructional videos.

ROCKFORD REGION VITAL SIGNS

Assisted in creating a HUD funded regional sustainability plan. Developed and managed a geospatial database for sustainability indicators. Created data visualizations using an online platform. Created print and video outreach materials.

QIU-HE LANDSCAPE DESIGN

Drafted plan documents. Designed landscaping concepts for residential developments.
